    historical background, 40-41
Australia
  hiring and selection in, 50-55
    background, 50-51
    evolving leadership role of nurses, 53-54
    NEMDP approach, 51
    NEMDP competencies, 51-53

Benchmarking
  quality and (*editorial*), 107
Business concepts, for frontline managers
  measure performance for greater accountability, 64
  quality as journey more than destination, 113
  selecting the right person, 7-8
  three things leaders can't delegate, 163

Capitation
  and delegation in home care delivery system, 186
  in changing reimbursement environment, 5-6
Caring
  tolerance versus (*case study*), 2-4
Case management
  clinical tool for success in managing care, 103
Case manager
  selection of, 43-49
    knowledge and skills needed, 45-49
    profile of, 43-44
    redesigned selection process, 49
    role outcomes, 44-45
    select for success, 43
Case studies, in nursing management
  delegation, 158-160
  engaging practicing nurses in quality improvement process, 108-110
  primary nurse accountability for patient care outcomes, 59-61
  tolerance does not equal caring, 2-4
Certified nurse midwives
  role of in managed care, 81-83
Challenge
  in supporting hardiness and quality patient care, 117
Clinical nurse specialists
  role of in managed care, 81-83
Clinical tools
  for success in managing care, 100-107
    case management, 103
    continuous improvement, 101-103
    customer satisfaction, 106
    empowerment, 103
    standards-based clinical practice, 104-106

Clinical tools (*Continued*)
system evaluation, 100-101
unrelenting communication, 101
Commitment
in supporting hardiness and quality patient care, 116-117
Communication
clinical tool for success in managing care, 101
Community setting
and delegation in home care delivery system, 186-187
ensuring quality patient care in, 146-151
outcomes system, 150-151
process system, 148-150
structural system, 146-148
Competency assessment
guidelines for in restructured health care system, 168-169
Continuous quality improvement, *see* Quality improvement
Control
in supporting hardiness and quality patient care, 116
Cost accounting systems, 62-63
standard, 111-112
Cost control
and high quality, 133-136
Cultural diversity
in hiring and selection of Asian staff, 40-42
quality improvement with a diverse staff, 137-142
Customer satisfaction
clinical tool for success in managing care, 106

Delegation, art and science of, 157-200
another look at, 195-197
developmental practice or ritualized activity (*case study*), 158-160
guest editorial, 164-165
in restructured health care system, 166-170
competency assessment guidelines, 168-169
legal issues, 166-167
licensed personnel, 168
multidisciplinary work team, 167
organizational support for RN team leaders, 169
role clarity, 169
unlicensed assistive personnel, 167-168
workload standards, 169-170
more art than science (*editorial*), 157
politics of, 191-194
factors affecting, 175-178
fears of delegation, 175
practical applications, 178-179
practical strategies for team building and, 180-184
barriers to, 182-183
in redesign, 184
steps to improve, 181-182
unlicensed assistive personnel, 180-181
when to delegate, 182
psychology of, 175-179
factors affecting, 175-178
fears of delegation, 175
practical applications, 178-179
regulatory perspective on, 198-200
safety of, 199
supervision, 199-200
Delegation, art and science of (*Continued*)
teaching the process of, 171-174
assessment, 171-172
evaluation, 173-174
implementation, 173
planning, 172-173

Education and staff development
teaching the process of delegation, 171-174
assessment, 171-172
evaluation, 173-174
implementation, 173
planning, 172-173
Emergency department
quality improvement in, 131-132
Empowerment
clinical tool for success in managing care, 103-104
Extenders, nurse
teaching the process of delegation, 171-174

Families, of patients
primacy of in quality-improvement environment, 126-130
Finance, for nurse managers
changing reimbursement environment, 5-6
cost-accounting systems, 62-63
product-line analysis, 161-162
standard cost accounting, 111-112
Future, of nursing management
delegation and, 195-197
new skills for next decade, 84-88
coaching the team, 86-88
managing multiple disciplines, 85-86
patient-focused care, 84-85

Hardiness, theory of
creating an environment to support, 115-118
challenge, 117
commitment, 116-117
control, 116
Health care reform
coexistence of high quality and low cost, 133-136
pathways for nursing in, 67-71
Health promotion
preparation of workforce for managed care, 89-90

developing interview questions, 18-20
evaluating the applicants, 25
screening applications, 20-23
selecting the best applicants, 26
the interview meeting, 25

Leadership
new set of skills for next decade, 84-88
Legal issues
supervision and delegation, 166-167
Legislation
on delegation in home care delivery system, 189
Licensed personnel
management of in restructured health care system, 168
Long-term care
patient's perceptions of quality, 152-156
developing quality improvement program, 155-156
using quality improvement programs, 154-155

Managed care
and changing reimbursement environment, 5-6
and delegation in home care delivery system, 186
preparing the workforce for, 89-94
acute care programs, 90-93
ambulatory care, 93
health promotion activities, 89-90
home care services, 93
Manager, case
selection of, 43-49
Manager, patient care
hiring criteria for, 29-30
interview questions for, 30
Managing care, accountability in, 57-106
advanced practice nurses, 81-83
clinical tools for success in, 100-106
guest editorial, 65-66
in ambulatory care, 72-75
managing in the next decade, 84-88
mapping changes for health care, 67-71
measure performance for greater sense of accountability, 64
model for implementing quality initiatives, 95-99

Managing care, accountability in (*Continued*)
multiple accountability (*editorial*), 57-58
preparing the workforce for managed care, 89-94
primary nurse accountability for patient care outcomes, 59-61
public-private partnership to facilitate, 76-80
Midwife, certified nurse
role of in managed care, 81-83
Multidisciplinary work team
management of in restructured health care system, 167

Nurse extenders
teaching the process of delegation, 171-174
Nurse practitioners
role of in managed care, 81-83
Nurse, patient care
hiring criteria for, 30-35

Outcome analysis
clinical tool for success in managing care, 101-103
Outcomes, patient care
high quality and low cost, 135-136
in public-private partnership, 76-80
primary nurse accountability for (*case study*), 59-61

Partnerships
accountability and outcomes in public-private, 76-80
Patient care manager
hiring criteria for, 29-30
interview questions for, 30
Patient care nurse
hiring criteria for, 30-35
Patient care technician
hiring criteria for, 30-35
Patient-centered care delivery
interviewing and selection strategies for, 27-35
for patient care manager, 29-30
for patient care nurse and technician, 30-35
Patient-focused care
new skills for nurse managers for, 84-88
primacy of patient and family in quality-improvement environment, 126-130
Patients
primacy of in quality-improvement environment, 126-130
Politics, of delegation, 191-194
